PROFILE

I am actively seeking a Front-End Developer role and have a solid understanding of front-end technologies. I am passionate about exploring new technologies and am currently learning TypeScript and Next.js. I believe my skills and enthusiasm for continuous learning would make me a valuable addition to your company.

PROFESSIONAL EXPERIENCE

Teleperformance, Customer Service Representative (UberEats Email Process)

August 2021 – May 2022
gurugram, India

Managed customer queries and
issues via email for UberEats.

Tutor, Self-employed

February 2020 – July 2021
Jabalpur, India
Provided tuition to students.

Food Panda

September 2018 – March 2019
gurugram, India
Provided exceptional customer
service for over half a year, resolving
issues and ensuring customer
satisfaction.

Preparing for government job

December 2016 – August 2018
Jabalpur, India
Despite my extensive efforts, I was
unable to achieve success in this
pursuit.

EDUCATION

Front End Development Bootcamp, Odin School 🔗

August 2023 – February 2024 | Hyderabad, India
I completed a 6-month intensive bootcamp that covered modern
front-end technologies and development practices. During this
program, I gained expertise in HTML5, CSS3, JavaScript,
ReactJS, and various essential development tools.

M.A in (Human Resource and Administration), Rani Durgavati Vishwavidyalaya University

March 2014 – November 2016 | Jabalpur, India

PROJECTS

E-commerce Website 🔗

I have made a Comfy Store app using ReactJS, incorporating
technologies such as axios, dayjs, Redux Toolkit, react-query,
react-icons, react-redux, react-router, and react-toastify. For
styling, I utilized Tailwind CSS and Daisy UI Tailwind. This
application includes features like home, product, cart, checkout,
and order pages, along with user login and registration
functionality.

Portfolio Website 🔗

I have created a portfolio website using HTML, CSS, and
JavaScript, incorporating all the necessary features for a
comprehensive portfolio.
